

Welcome Home...

Coordinate security, temperature, and lighting for comfort, convenience, and safety

Automation
*Simplified*SM by **HAI**[®]

Automation SimplifiedSM

An HAI automated home provides temperature and lighting control for energy savings, integrated UL-Listed security for enhanced safety, and the convenience of telephone and Internet access and control.

Enhanced Safety

OmniLT with accessories

Your HAI Omni system is a fully functioning UL-listed security system— only smarter! Your Omni system monitors and alerts you of: intrusion, fire, carbon monoxide, freezing conditions, water leaks, etc. You can call in to your system to check on the status of your home or adjust lights and temperature.

Additionally, lighting controls can make a vacant home look and sound occupied. In the event of a fire, your air conditioner is turned off to deter the spread of smoke and fire. Optimal interior lighting aids in your family's safe exit.

Lighting Control

For the ultimate in convenience, your HAI Omni system has automated lighting sequences for 'good night', 'good morning', or 'entertainment'. Program lights to come on when a door is opened or when a car enters the driveway. Light up a dark hallway when motion is sensed. Enjoy lighting timed with sunset and sunrise.

Create a dramatic or relaxing effect in your home with true architectural lighting scenes to enhance your enjoyment of parties, family movie nights, romantic dinners for two.

Temperature Control

Superior comfort with energy savings. Precision electronics maintain an even temperature for your family's ultimate comfort and saves on your utility bill.

Automated temperature controls allow comfortable temperatures while you are home and energy savings while you are away. Can be based on mode (day, night, away), room occupancy, or outdoor temperature.

www.homeauto.com

Whole House Control

Motion Detection

Serves a dual purpose: Security for intrusion, occupancy for automatic lighting.

Pool & Spa

Control filters, timers, heating, temperatures, solar control and more.

Vehicle Detection

Announce Visitors, turn on lights, and switch on TV to view driveway, etc.

Lighting

Architectural quality lighting control, passive security for "lived-in" look.

Security

Professional quality UL-Listed security is built-in to Omni Family Controls

Irrigation

Omni Systems can control your irrigation solenoid valves for lawn sprinklers, plus inputs for rain sensing.

Internet

HAI Web-link II allows you to control and see status of your Omni System from anywhere via the web

Telephones

Control your Omni System for security, temperatures, and status via any phone at home or away. Also, get a call to advise on temperature, security and more.

Heating & Cooling

Be comfortable at home, save energy when you're away. Indoor/Outdoor temperature and energy management.

Multi Room Audio

Control music volume around the house with your Omni.

Omnistat™ by HAI

Communicating thermostats for heating & cooling control. Displays time and outdoor temperature.

Web-Link II for complete remote access to your Omni System

If you choose, you can access and control your Omni system over the Internet with HAI's Web-Link II software. Check on your house with video surveillance, verify the kids have arrived home from school with email notification, or disarm the security system for an arriving guest. Web-Link II makes it easy to stay connected to home and family!

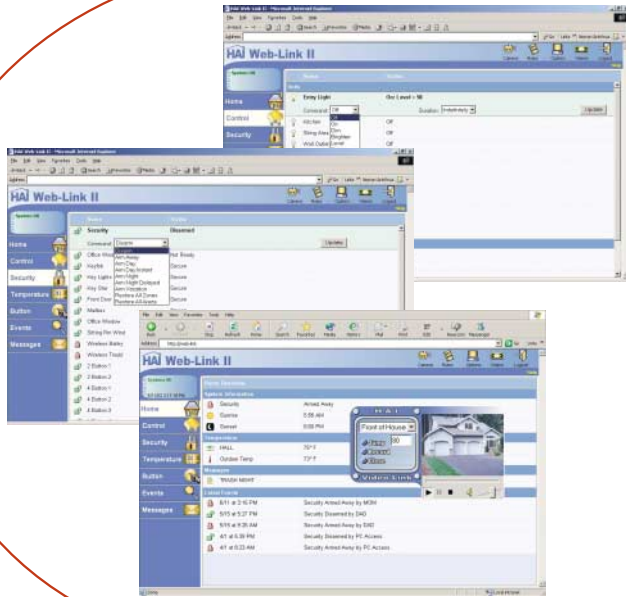

Web-Link II for Internet access and control

OmniTouch™

The OmniTouch provides a fun and affordable interface for the award-winning Omni Family systems. It allows one touch control of security, temperature, lighting, audio, and other home control functions.

Automation SimplifiedSM by HAI

Since 1985 HAI has been the leading manufacturer of integrated security and home automation products with a proven track record of reliable, economical, and innovative products. All HAI products are sold through a world wide network of distributors and installed by over 1,000 trained dealers. Contact HAI, or an HAI dealer near you, to find out how we can transform the comfort, convenience, and safety of your home.

HAI MODELS <i>household (in sq. ft.)</i>	Omni LT <i>up to 2000</i>	Omni II <i>1000-3000</i>	OmniPro II <i>2000+</i>
CAPACITIES
